<b>CONTROL MEASURES:</b>									
List below control measures eg extraction, ventilation, supervision, include additional controls for vulnerable persons where necessary									
Keep away from children. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Keep container tightly closed. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/ shower IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/ attention. In case of fire: Use foam, carbon dioxide, dry powder or water fog to extinguish. Store in a well-ventilated place. Keep cool. Dispose of contents/ container in accordance with national regulations.									
<b>HEALTH SURVEILLIANCE:</b> Is health surveillance or monitoring required? (remember health surveillance may be required for vulnerable persons e.g. pregnant/young workers those with asthma, dermatitis etc.)								<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
<b>HAZARD SYMBOLS</b>									
(Place a X in each of the boxes that identifies the Hazards associated with using this substance)									
<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
									
Toxic/Very Toxic	Caution Irritant	Flammable	Oxidising	Health Hazards	Dangerous To Environment	Gas Under Pressure	Corrosive	Explosive	
<b>HEALTH HAZARDS</b>									
Highly flammable liquid and vapour.									
Avoid heat, flames and other sources of ignition. Containers can burst violently or explode when heated, due to excessive pressure build-up. Static electricity and formation of sparks must be prevented. Do not pressurise, cut, weld, drill, grind or otherwise expose containers to heat or sources of ignition.									
May cause serious eye irritation									
The product is water-soluble and may spread in water systems. The product contains volatile substances which may spread in the atmosphere									
Does not decompose when used and stored as recommended. Thermal decomposition or combustion products may include the following substances: Harmful gases or vapours.									

**PERSONAL PROTECTIVE EQUIPMENT**  
 (Place a X in each of the boxes for mandatory PPE/RPE)

Dust mask	Respirator	Visor	Eye Protection	Boots	Overalls	Gloves

**FIRST AID MEASURES**

Eye contact	Remove contact lenses, irrigate copiously with clean, fresh water, holding the eyelids apart for at least 15 minutes and seek immediate medical advice and show the container or label
Skin contact	Remove contaminated clothing and shoes. Wash skin thoroughly with water
Inhalation	Remove affected person from source of contamination. Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Maintain an open airway. Loosen tight clothing such as collar, tie or belt. When breathing is difficult, properly trained personnel may assist affected person by administering oxygen. Place unconscious person on their side in the recovery position and ensure breathing can take place.
Ingestion	Never give anything by mouth to an unconscious person. If swallowed, seek medical advice immediately and show the container or label. DO NOT INDUCE VOMITING unless under direction of medical personnel. Rinse mouth thoroughly with water. Remove any dentures. Give a few small glasses of water or milk to drink. Stop if the affected person feels sick as vomiting may be dangerous. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Never give anything by mouth to an unconscious person. Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Place unconscious person on their side in the recovery position and ensure breathing can take place. Maintain an open airway. Loosen tight clothing such as collar, tie or belt

**FIRE MEASURES (Place a X in each of the boxes that can be used with this COSHH Substance)**

**THE PRODUCT IS FLAMMABLE. USE FIRE EXTINGUISHING MEDIA SUITABLE FOR THE SURROUNDING FIRE**

**DO NOT USE WATER JET**

## Storage

Read and follow manufacturer's recommendations. Wear protective clothing as described. Keep away from food, drink and animal feeding stuffs. Handle all packages and containers carefully to minimise spills. Keep container tightly sealed when not in use. Avoid the formation of mists. The product is flammable. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. In use may form flammable/explosive vapour-air mixture. Vapours may accumulate on the floor and in low-lying areas. Use explosion-proof electrical, ventilating and lighting equipment. Use only non-sparking tools. Take precautionary measures against static discharges. Do not handle until all safety precautions have been read and understood. Do not handle broken packages without protective equipment. Do not reuse empty containers.

## Environment

**Spillage:** Wear protective clothing as described. Clear up spills immediately and dispose of waste safely. Eliminate all ignition sources if safe to do so. No smoking, sparks, flames or other sources of ignition near spillage. Do not allow material to enter confined spaces, due to the risk of explosion. Absorb small quantities with paper towels and evaporate in a safe place. Once evaporation is complete, place paper in a suitable waste disposal container and seal securely. Flush contaminated area with plenty of water. Wash thoroughly after dealing with a spillage. Promptly remove any clothing that becomes contaminated.

**Transport:**

**Disposal :** Dispose of surplus products and those that cannot be recycled via a licensed waste disposal contractor. Waste, residues, empty containers, discarded work clothes and contaminated cleaning materials should be collected in designated containers, labelled with their contents. Incineration or landfill should only be considered when recycling is not feasible. Vapour from residual product may create a highly flammable or explosive atmosphere inside the container. Containers should be thoroughly emptied before disposal because of the risk of an explosion. Do not cut or weld used containers unless they have been thoroughly cleaned internally. Dispose of contents/ container in accordance with national regulations.
